The deadline is the 1st November 2019.

# STRUGGLING WITH YOUR BUSINESS ALONE. JOIN BEE NET!

## Who Can Participate?

The BEE NET project encourages and facilitates Small and Medium sized enterprises (SME's) who are willing to build partnering business ventures with internationalization needs.

BEE Net is specifically addressed to:

- European micro, small and medium enterprises with limited international experience, companies that have carried out internationalisation activities (e.g. import/export, co-operations, joint ventures, participation in fairs and missions) in the past two years, and have ambitions of growing their business abroad.
- A special focus is given to family businesses, as they account for an important part of European private employment (on average 40 - 50% of all jobs).

## Why Participate?

Growth and globalization through networking. The Objective of BEENET is to help SMEs set European Business Networks (EBNs) for joint internationalization support strategies.

BEENET is a process of business network creation. BEE NET

- helps companies acquire new business models and develop a network strategy to grow and be more competitive in global markets
- can attract SMEs from all over Europe
- facilitates the implementation of projects in the EU single market and in Third Countries
- offers **funding** for experimenting new European Business Networks (EBNs)
- is part of a dynamic Networking process

Through its Web Platform SMEs are inter-connected and information is shared.

Through its matching platform and live interaction with SMEs it helps firms to integrate.

BEENET training and coaching programme will provide guidance to facilitate successful development of business networks

BEENET consortium will support the creation of business network through tailor-made support.

## How it works?

By registering with BEE NET project you will benefit from many high value advantages:

- Participate in the project for free and register your company on the online platform <https://bee-net.b2match.io/>
- Receive assistance from an international expert group and from Enterprise Europe Network
- Improve your skills through dedicated training sessions, live and podcast webinars, which will allow you to apply new business models, learn internationalisation processes, how to draw an action plan, how to set up a Business Network; and more....
- Exchange experience, ideas, and find new international partners through the matching tool and virtual meetings
- Participate in the Open Call for Proposals for EBNs: the 10 best projects will receive a grant of 25.000 euros
- Approved EBNs will receive mentoring and constant support during the implementation of their projects, which will last 12 months
- Participate in the international kick off meeting for EBNs in Barcelona and the final event in Palermo: the 10 awarded EBNs will have the great opportunity to showcase their results, increase their networking and achieve a high visibility.
